

ADVANTAGE

HEALTH PLANS TRUST

Advantage Premier Providers

Endorsed Provider

WHAT IS A PREMIER PROVIDER AND WHY ARE THERE SO FEW?

Definition:

An Advantage Premier Provider or "APP" is a provider or group of providers that the Trust has directly contracted with in order for us to receive highly discounted (CASH ONLY) pricing.

These providers are:

1. NOT part of a new PPO
2. Not just for local participants
3. Progressive, free-market thinkers
4. Choosing to NOT play the cost shifting game
5. Potentially, game-changers in the healthcare marketplace

The Pricing is:

1. All-Inclusive
2. Completely transparent
3. Deeply discounted
4. "Cash Only"
5. Not a % off "billed"
6. Usually, more than 50% off competitors, can be up to 80% lower

PREMIER PROVIDERS IN THE FUTURE....

How will this program evolve?

- *APPs* are not a PPO network
- *APPs* are an exclusive group
- We **are** in negotiations with additional providers
- Not feasible for large hospital systems
 - Lots of overhead
 - Lots of unreimbursed care
- Competitive pressure for other like-minded providers
 - Banker involvement to assist finding the right partners

WHAT SERVICES DO THEY PROVIDE?

The Surgery Center of Oklahoma:

The Surgery Center of Oklahoma is a 32,535 square foot, state-of-the-art multispecialty facility in Oklahoma City, owned and operated by approximately 40 of the top surgeons and anesthesiologists in central Oklahoma. The facility has been accredited by the AAAHC since 1998 without interruption and has annually provided care to thousands of patients.
