

VOLUNTARY DENTAL BENEFITS

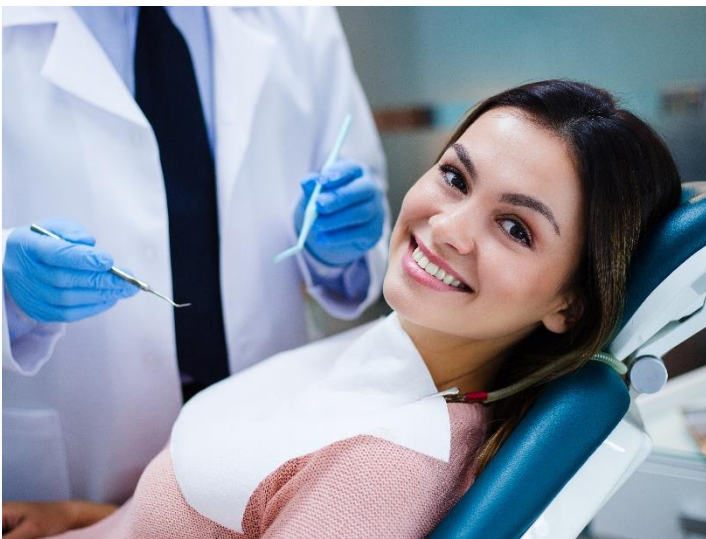

Why Do I Need Dental Coverage?

Taking good care of your teeth is important to your health! The importance of proper dental care for good health. Research has shown that gum disease is linked to health issues in other parts of the body. Having healthy teeth and gums can lower your risk for heart attack and stroke.

We created our dental program to allow you to get the care you need without the hassle! Our dental program has no PPO, so you can go to *any dentist* you choose. It is also self-funded, so your contributions stay in the Plan, instead of becoming profits for an insurance company.

Treat your smile well and it will reward you by shining!
